

## Inviting YOU

Matt Dykes and Scott Donovan have committing themselves to helping Star of Hope. Matt and Scott have long been interested in helping the less fortunate here in Kansas and now they are making a change far away from Kansas. Here is what they say:

We want you to be a part of Star of Hope too, that's why we are hosting the "Star 36 Challenge" event and are inviting you too come. We know you have a passion for children and education as well as serving God.

**We want you to be a table host and help us fill one table of 8 with people who share our passion as well Star of Hopes passion.**

After you have made a decision to help us make the world a better place, sign up and sign in at [www.starofhope.us/star36](http://www.starofhope.us/star36)

Thank you

Matt and Scott

Star of Hope is an independent Christian organization helping children across the world become educated, healthy, godly men and women, who live to impact their world.

**Making a Difference**

## The Star 36 challenge!

A Star 36 Challenge is a charitable fund-raising banquet and presentation hosted by a local partner or partners and Star of Hope.

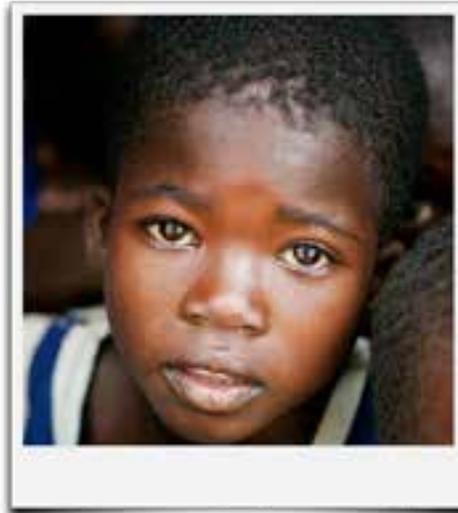

The purpose of the event is to communicate the powerful ways God's work is being done by Star of Hope and its sponsors around the world.

The event is a call to action to those whose hearts desire is to align with this work and Star of Hope and help fulfill our goals as well as the Great Commission.

This inspirational program will encourage all through personal testimonies, video presentations and dinner.

## Am I next?

I want to be a success too.

In Argentina a woman earns a living as a baker.

In the Philippines a former student is now the teacher.

This student is going for his masters in mathematics.

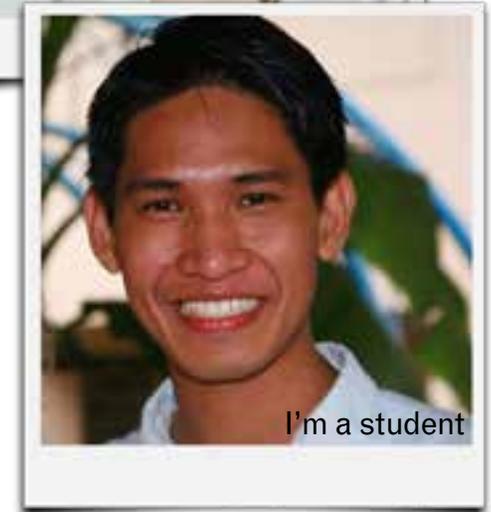

These successes are due to contributions from people around the world and in Kansas, just like you.

I'm a baker

I'm a teacher

I'm a student

Did you know about 60 million primary school-aged children are still out of school?
