

Conference report from Romania

Reported by Aura Vatamaniuc, Star of Hope Romania

I am very thankful to God for the big success the Conference we had this summer in Sucevita, Romania. It rained outside and inside the conference room it rained many blessings from the Lord. His word touched every woman and man who was inside including the children. We had more than 170 participants. Thank you so much for all your prayers and economic support.

We want to give praise to the Lord for the wonderful speakers we had. We were honored to have for the first time in Romania pastor Brit Krogedal and her daughter Caroline Aarsvold from Norway. Brit was talking about Faith,

Hope and Love in our life. This year was also a special added benefit as it was also declared the Year of Endurance for Romania.

The woman enjoyed to hear about the SISTERHOOD. We loved to hear that 20.000 woman are praying for us.

Caroline gave her testimony about how she was motivated by her mother to follow Jesus. Her worship songs were wonderful to bring us more close to God. Fantastic voice!

Pastor Hakon Skaug, representative from Star of Hope Norway, presented the subject "The mark of a real Man" this helped the men to find out what are the changes they can do to be the best husbands and good fathers.

Thank You

for being a

part of it

Testimony from Profiri family from lasi center

Maine Olofsson, the representative from Star of Hope shared from her experience, remembering 20 years ago in Romania when the children with disabilities were abandoned in big orphanages. She mentioned the inspiration the Lord gave to Star of hope Romania to start to work with the parents in 1999 until today in order to prevent the children to end up in institutions. Today Star of Hope Romania has the biggest network with the parents who have children with disabilities in Romania. (More than 1000 parents in 10 Parents Associations)

The message given was to lift up the eyes to the Lord from where the help comes, not to the circumstances Romania is in: insecurity political, social and economic.

Pastor Heather Dyce from England gave her testimony of life which was very impressive because she talked about the hard time in her life before she met Jesus. The experience she has in counseling has helped many mothers to open their heart and also to pray. The mothers have let the tears come out. They expressed the need they have that someone takes their burden.

The family of Chris and Ruth Baker was given their testimony of life which shows the intervention of the Lord just at the right time. They guided the participants through practical exercises during the seminars about family relation and relation with God. This family helped very much with the preparation of the program for

Testimony from Profiri family from lasi center

I came to this conference with my husband and our three children. Bianca is 4 years old and she is very happy because she met new children. She was also enthusiastic by the nature and by the employers of Star of Hope Foundation which have been very open to her needs. Filip is our two year little boy which was born with Down syndrome. He certainly felt love by the people who walked him and who played with him while we were discussing at the parents meetings. Teodora is the youngest member of our family. She is one month old and I'm happy that I had the chance to come here with my whole family.

I'm getting back home full of enthusiasm and with more strength knowing that 25 000 women are praying with me and because we know that

the Conferences and helped with the moderation in the separate groups with mothers and fathers.

The translation was very good because we had family Vasiliu Florin and Denis which are pastors and teachers in English.

We had a nice, group of singers inspired by the Lord which lead us during the time of worship.

I am so enthusiastic and inspired by God to go on in my work at Star of Hope Romania, after I heard all the testimonies from the woman and their husband. I was crying together with them when I heard that they so much liked the Conference which was based on Christian message from the Bible. They said they did not expect that it and were not used with it but they appreciated that we created a very good atmosphere, they felt precious and they learned to communicate better, to be more open to speak about their huge problem and to give themselves to the Lord. For many It was their first experience to hear somebody praying loud and sing together.

We love you and all the people from USA who was supporting us during the Conference.

Blessings

Aura Vatamaniuc, Star of Hope Romania

God sees us, He hears us and He doesn't stay indifferent. After this experience i'm going home with the will of showing much more love for each member of my family. I have lived with God for nine years and I was always sure that He was preparing me for a great mission. I'm still searching the way God could use me in this mission serving the people around me. One thing is for sure: the prayer that comes from an innocent heart is much more than anything I could do. I have to thank you for the fact that you are supporting my family and praying for it and because you gave me the chance to fill up my soul this weekend that I spent in Sucevita.
